- **Indemnity insurance quotation:** if Planning Permission has not been revealed for alterations carried out to the property

### Building Control and Restrictions on Land or Development Use

- **Full copies of the documents revealed**
- **Indemnity insurance quotation:** if Completion Certificates have not been revealed for all alterations carried out to the property

### Environmental Issues

- **Environment Report:** this Local Search result does not show any records of contamination held by the Local Authority. However, these records only indicate land that has been fully investigated and designated as Contaminated Land, and does not confirm that a site will not be investigated in the future. As most councils have not yet completed their contamination records, you should consider an Environment Report.

## Hazards identified

Potential risks have been identified for this address based on data from the Environment Agency, Coal Authority and other authoritative sources. As a result we strongly recommend you consider the following searches:

## Information for Buyers

This section is a guide to the content of the local authority search result. It should be read in association with the main report. This information should not be considered as legal advice and you should check with your conveyancer and/or surveyor if you have any concerns about the search results.

If you would like to know more about the issues raised, there is a wealth of information available using the keyword search facilities at [www.communities.gov.uk/publications](http://www.communities.gov.uk/publications) or [www.direct.gov.uk](http://www.direct.gov.uk) or [www.stlgroup.co.uk](http://www.stlgroup.co.uk)

### Local Land Charges and Other Restrictions on Development or Land Use

Local Land Charges indicate any restrictions or legal obligations placed on a property or land. They are designed to ensure that buyers are informed about any limitations or requirements. Your conveyancer will provide further advice.

#### The property is subject to 1 Tree Preservation Order

##### What is a Tree Preservation Order?

One or more trees within the boundary of the property are protected. This means that you will need to obtain permission from the Local Authority before cutting the tree back or removing it. If you are not granted the necessary permission, or you carry out work without obtaining permission, you could be fined.

#### The property is subject to 1 Miscellaneous Charge - Smoke Control Order

##### What is a Smoke Control Order?

A smoke control order limits the fuels which you can burn upon the property to smokeless fuels. This does not apply to bonfires.

## Planning

This report reveals 16 planning entries since 1970.

### What is a planning entry?

The results show any planning applications refused or approved for the property. Your Conveyancer will advise whether they need to see full copies of any planning permissions revealed. For example, they may not need to see full copies of permissions over 10 years old which do not have conditions attached. Please let your Conveyancer and your Surveyor know if you are aware of any other alterations which do not appear on this list. Permission may not have been required, but your Conveyancer will advise you if there are any concerns.

Do not approach the Council direct without first speaking with your Conveyancer, as it could limit your options.

If planning permission may have been required but was not obtained, you may wish to obtain insurance against enforcement by the Local Authority. Your Conveyancer will confirm whether insurance is an option.

### When do I need planning permission?

You do not always need planning permission. Unless the property is in a Conservation Area or Listed, permission is usually not required for changes to the inside of the property or small alterations to the outside, such as erecting fences below a certain height or installing an alarm box. You will, however, usually need to apply for planning permission to add an extension or to separate part of your home for business use.

### What about planning applications for nearby properties?

Please note that this report does not consider planning applications or permissions relating to other properties nearby. You can obtain this information via a Planning report which will also include information about the neighbourhood such as rights of way, local amenities, average house prices and council tax bands, local schools, colleges and performance tables, theft insurance claims and more.

## Building Regulations

This report reveals 2 building regulation entries since 1 January 1977.

### What does this mean?

The results show Building Regulations entries. Please let your Conveyancer and your Surveyor know if there are any alterations which do not appear to have consent.

Do not approach the Council direct without first checking with your Conveyancer, as it will limit your options.

Consent may not have been required but your Conveyancer will advise you if there are any concerns or whether you should consider insurance.

### What are Building Regulations?

Building Regulations apply to building work in England and Wales. They set standards for the design and construction of buildings to ensure the safety and health for people in or about those buildings. They also include requirements to ensure that fuel and power is conserved and facilities are provided for people, including those with disabilities, to access and move around inside buildings.

### Is Building Regulations approval the same as planning permission?

Building Regulations approval is a completely separate matter from obtaining planning permission for any proposed work. Similarly, receiving planning permission is not the same as taking action to ensure it complies with the Building Regulations. The responsibility for checking that Building Regulations have been met usually falls to a Local Authority Building Inspector.

## Local Area Land Use

### The report reveals the following

#### Within:

- Core Strategy Sub Area Stanmore and Harrow Weald
- Critical Drainage Area

### What does this mean?

Land Use Designations indicate the primary use for the area as decided by the Local Authority. If this will affect your intended use of the property please contact your Conveyancer.

Further information about land use can be obtained from the Local Authority shown on the front of this report.

### What is a Development Plan/Local Plan?

Development plans set out the local planning authority's policies and proposals for the development and use of land in their area. The development plan guides and informs on day-to-day decisions as to whether or not planning permission would be granted. Although plans do not have to be rigidly adhered to, they provide a firm basis for rational and consistent planning decisions.

## Road Maintenance

Jellicoe Gardens is highway maintainable at public expense

### What does this mean?

A maintained road is paid for by public expense or by another body such as a housing association. A road that is not publicly maintained is one that the householders fronting it maintain at their own expense. Please let your Conveyancer know if there are any other roads, footpaths or other accessways to the property and they can check that the rights you will need exist.

## Road, Rail and Traffic Schemes

The property is within a local authority area that will be affected by the High Speed 2 (HS2) route. For more information, please visit [www.dft.gov.uk/publications/hs2-maps-20120110](http://www.dft.gov.uk/publications/hs2-maps-20120110). Alternatively, please contact us to order an Energy & Infrastructure Report (HS2).

### What does this mean?

There are proposed transport schemes near to the land.

## Contaminated Land

The report has not revealed any records of contamination held by the Local Authority

### What should I do next?

The Local Authority is obliged to identify contaminated land sites and issue 'remediation' or clean up notices to the homeowner or developer of the land. Land is usually contaminated due to past industrial use. However, not all contaminated land has been identified by the Local Authority. It is for this reason that your Conveyancer may have ordered an Environment Report - which is recommended for all properties - or insurance.

Most environment reports also contain information about nearby industrial processes, landfill or waste management sites, as well as pollution incidents, basic flood information and whether the property could be affected by subsidence or landslip.

## Hazards Identified

As hazards have been identified for this property, we strongly recommend the report(s) following:

**Subsidence Report (Postcode)**

**Flood Report (Homecheck Pro)**

### What does this mean?

Certain parts of the UK are at risk of hazards caused by flooding, mining activity, Radon gas or other reasons. These hazards have the potential to cause subsidence or have a negative effect on health. If you are buying property or land in Cornwall, for example, your mortgage lender will usually require a tin mining search which will identify current, planned or historic underground workings, and may indicate if any previous claims have been made for subsidence. A flood report will provide you with a detailed assessment of flood risk, flood defences and the potential impact on insurance for the property.

### What is a Subsidence Report (Postcode)?

This report identifies the level of subsidence risk at a specific postcode level.

### What is a Flood Report (Homecheck Pro)?

This report provides a full assessment of flood risk and the potential impact on insurability.

### What hazards do you check for?

- Flood risk (rivers or coastal, groundwater and surface water)
- Subsidence risk
- Ball clay mining
- Cheshire brine
- Coal mining
- Limestone mining
- Tin mining
- Radon gas
- Fracking / energy exploration
- Wind farms and turbines
- The proposed High Speed 2 rail link (between London, Birmingham, Manchester and Leeds)

Hazard alerts are based on data from the Environment Agency, Coal Mining Authority and other authoritative sources.
